PREFERRED LAND USES (at the 6/14 workshop, participants will be given green dots to place on each land use that you believe would be acceptable for each property and a gold dot to indicate your preferred land use type, again for each property. For those not attending but submitting the feedback sheet in advance, please type an "0" in each column for an acceptable land use and an "X" for your preferred land use and e-mail to bbrown@novato.org). Note that "No More Development" isn't an option for vacant sites (unless there is public acquisition).

PREFERRED CIRCULATION IMPROVEMENTS (at the 6/14 workshop, participants will be given green dots to place on each circulation improvement that you believe would be worth examining. For those not attending but submitting the feedback sheet in advance, please type an "X" in each row that you believe is a circulation improvement worth considering and e-mail to bbrown@novato.org).

Hook Ramps on & off US 101	
Connect Rush Landing Rd. into American Assets	
Create Ped/Bike Connection between Wood Hollow and Fireman's Fund	
Roundabout at Redwood/Rush Landing Rd.	
Modify Redwood/San Marin intersection and U.S. 101 interchange to improve traffic flow	
Accepting longer queues if it means adding fewer lanes	

Other circulation improvements worth considering:
