NOTICE OF REMEDIATION ACTIVITY

HAMILTON SQUARE – 970 C STREET

Contaminated Soil Remediation

Hamilton Square, LLC intends to initiate the remediation of contaminated soil at Hamilton Square, 970 C Street, Novato, beginning on July 7, 2018. The removal of contaminated soil is planned to be conducted over three consecutive weekends; soil removal will not occur on weekdays. An environmental monitor, contracted by the City of Novato, will be on-site during all remediation activities.

Pre-remediation soil testing will be conducted prior to contaminated soil being removed from the project site. This testing will be performed in late June and will involve drilling ten test borings at select locations on the site.

The remediation activities are being conducted under City of Novato Use Permit No. P2013-040.
