Overview: Public Works Department staff is recommending to the Novato Street Improvement Oversight Advisory Committee (SIOAC) that stop signs be installed on Alameda Del Prado at US101 Southbound On and Off ramps. The additional stop signs are expected to enhance traffic safety. The City Council has the sole authority to establish all-way stop controls in Novato, but staff seeks SIOAC input before making a recommendation to the City Council.

**If you have questions or comments regarding these recommendations please contact
Mary Jo Yung, Senior Traffic Engineer at 415.246.2987 or pw@novato.org.**
