RE: Section 6409 Eligible Facilities Request

Dear Mr. Damodaran,

Modus LLC, an authorized agent of Dish Wireless, respectfully submits the attached Section 6409 EFR Application Package for the modification of an existing wireless facility located on a private structure at 199 San Marin Drive, Novato, CA 94945

Please find enclosed in the Application Package:

1. Cover Letter
2. Zoning Application
3. Acknowledgment of Cost Recovery
Check amount \$2,574.00 for initial deposit
4. Preliminary Title Report for subject property
5. Property Owner Letter of Authorization
6. DISH Letter of Authorization
7. DISH FCC License Verification
8. Previous Permit of Existing Site

Project Description and 6409 Eligibility – Please see below and attached

9. DISH Section 6409 EFR Checklist
10. Novato Eligible Facilities Request Checklist
11. Project Plans
12. Photo Simulations
13. Radio Frequency EME Report
14. Noise Analysis

Project Description:

DISH Wireless LLC proposes to collocate on an existing wireless facility site located at 199 San Marin Drive. The proposal is to install six (6) antennas (2 per sector) and twelve (12) RRUs on the rooftop. The three sectors will be concealed behind FRP screening painted to match the

www.modusllc.com

existing structure and not seen from public view. The equipment cabinet and associated equipment will be installed on the ground inside a fenced area. Both power lines and fiber lines will be placed in a new cable tray on the rooftop. The cable tray will run from the equipment cabinet to each antenna location. All proposed concealment will be painted to match existing and antenna height will not exceed the height of the existing facility.

This project will help support the wireless connectivity needs of residents, businesses, and first responders in the community – needs that now are more critical than ever, especially for those consumers without access to other sources of connectivity.

Consistent with the FCC's shot clock rules, the submission of this application initiates an initial 60-day shot clock to review and approve the application. *Id.* § 1.6100(c)(2). DISH wireless may be agreeable to extending these timelines.

Notwithstanding the 60-day deadline, DISH Wireless would be willing to enter into a tolling Agreement based on the City of Novato's request for additional review time due to a specific reason and for a specific and reasonable period of time.

- Application submitted: 4/27/2022
- Notice of incompleteness due by: 5/27/2022
- Final action to be taken by: 6/27/2022

Please do not hesitate to contact me should you have comments or questions.

Respectfully,

Jacob Olander
