Dear Property Owner:

ADVANCE NOTICE:

2023 & 2024 ANNUAL PAVEMENT REHABILITATION

Project Website: novato.org/streetpaving

We are the general construction contractor for the City of Novato Capital Improvement Project: Annual Pavement Rehabilitation.

The general scope of the construction work includes:

- Preparing the Pavement Surface
- Applying a Rejuvenating Scrub Seal
- Applying Micro-surfacing
- Placement of Thermoplastic Striping and Marking

Our overall schedule for the construction work is as follows:

- Begin Preparing the Surface: 6/10 – 6/14, 6/17 – 6/21, 6/24
- Applying the Rejuvenating Scrub seal: 6/27 – 6/28, 7/1 – 7/2
- Applying the Micro-surfacing: 7/1 – 7/3, 7/8 – 7/10
- Placement of Thermoplastic Striping and Marking: 7/8 – 7/19

The hours of construction will be from **7:00 AM** to **5:00 PM** unless otherwise stated in a follow-up notification. When traveling through construction zones please maintain low speeds and observe the **“No Parking”** signs. No parking will be enforced, and vehicles will be towed if they do not adhere.

During Scrub Seal installation roads will remain open with minor delays to be expected. During Micro-surfacing application and about 3-4 hours afterwards, traffic will not be allowed to travel over new surface until the road is open. A follow up notification will be delivered prior to Scrub Seal and Micro-surfacing work.

Please talk to our on-site foreman about any concerns with the work. Our on-site foreman for the work is Andres Lopez. If you are unable to locate the foreman at the job site, call Jake Boggess at 916-642-1751.

We appreciate your cooperation on this project.

Sincerely,

Pavement Coatings Co.
