Re: Eligible Facilities Request - Modify Communications Facility at **2045 Novato Blvd, Novato CA 94947**.

To Whom it May Concern:

This letter is in response to the City of Novato's request to: *"Provide a statement indicating whether the applicant may be agreeable to extending the time periods set forth in 47 C.F.R. Section 1.6100(c) and in accordance with Government Code Section 65964.1 and applicable FCC decisions, as defined within that section."*

T-Mobile is not agreeable to extending the time periods governed by Section 6409 of the Middle-Class Tax Relief and Job Creation Act of 2012, commonly known as the "Spectrum Act" (Pub. Law No. 112-96, 126 Stat 156). Section 6409(a) of the Spectrum Act states that state and local governments "may not deny, and shall approve, any eligible facilities request for a modification of an existing wireless tower or base station that does not substantially change the physical dimensions of such tower or base station."

Under federal law, an Eligible Facilities Request is deemed granted sixty (60) days after a complete application is filed. Thus, if sixty days pass after the submission of the Request and the City/County has not acted to grant or deny the Request, it will be deemed granted.

T-Mobile is committed to working cooperatively with you to process this request in a timely and efficient manner. Please do not hesitate to contact me if you have questions.

Sincerely,

S. Wilson
